

Research Finds Meth Could Cure the Flu

NOW FOR A FLU KICKER...

RESEARCHERS SAY THEY'VE FOUND A SURPRISINGLY NEW TREATMENT FOR THE SICKNESS...
METH.

[TAKE VO] {***VO***} [<mos>**A** anime Lower 3rd CHIP 00394427 HEALTH HEADLINES METH REMEDY FOR THE FLU
newsfile</mos>]

WE ALL KNOW METH IS A TOXIC DRUG THAT KILLS BRAIN CELLS-- WEAKENS THE HEART -- AND
LEADS TO POSSIBLE DEATH.

BUT TAIWANESE RESEARCHERS SAY METH TREATED CELLS HAD A LOWER CONCENTRATION
OF THE VIRUS THAN NON METH CELLS.

DOCTORS WOULD NEVER RECOMMEND THIS REMEDY... BUT THIS RESEARCH COULD HELP
FIND SAFE COMPOUNDS OF THE DRUG.
